Life Is On

Life Is On

Embrace a new journey with **Circular Economy**

Our closing the loop approach is aimed at reducing waste within the entire product lifecycle to ensure optimal use of resources.

**Schneider
Electric**
Circular
Certified

A circular product certification program that is in line with Schneider Electric's circular economy strategy and sustainable development commitments.

A label dedicated to the sale and promotion of products from the circular economy, launched by Schneider Electric.

Schneider Electric Circular Certified Products, like any other Schneider Electric products are subject to the applicable legal warranties.

Our Circular Certified Products have several origins: surplus, commercial returns, repaired and refurbished.

Schneider Electric is committed to making the most of our resources for a more Sustainable world. **Life Is On.**

Our Circular Certified Label is specific to Schneider Electric and is based on value propositions developed internally by Schneider Electric. As such, our Circular Certified Label is not based on a prescriptive referential and is not delivered by a certification organization

Circular MasterPact

Proven quality you can rely on, yet even more sustainable

A classic MasterPact model with a reduced environmental footprint.

Up to 45% of raw materials are re-used, making our Circular Certified products an answer to increased Sustainability whilst ensuring business continuity.

SUSTAINABLE

Reduced environmental footprint due to re-use of embodied materials.

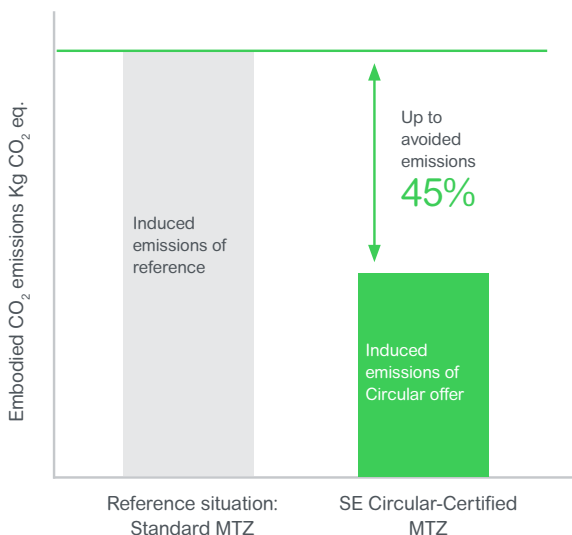

RELIABLE

Compliant to IEC 60947-2 standards of manufacturing ensuring maximum reliability.

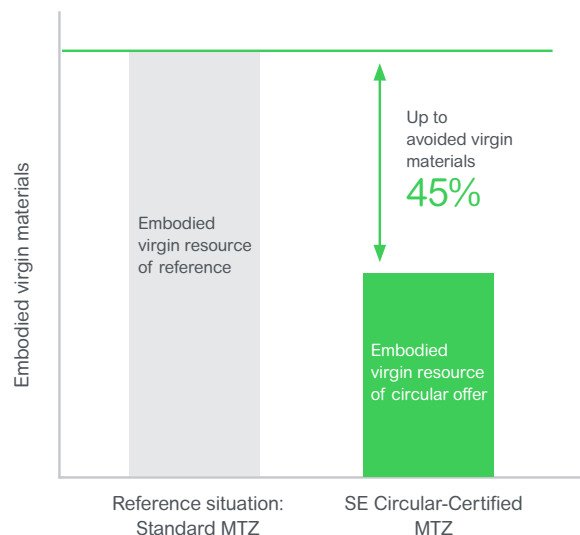

TRANSPARENT

Transparent with any product limitations.

Fossil Fuels

Metals & Minerals

Note: Get access to CO₂ impact methodology developed by Schneider Electric by scanning the QR code

The estimated avoided emissions are based on data that were rendered from extrapolation and comparison to the Product Environmental Profile of the standard offer.

A dedicated process helping to evolve more sustainable operations

Each product in the circular-certified offer are:

Fully dismantled, completing any re-configuration opportunities designed to meet specific customer demand.

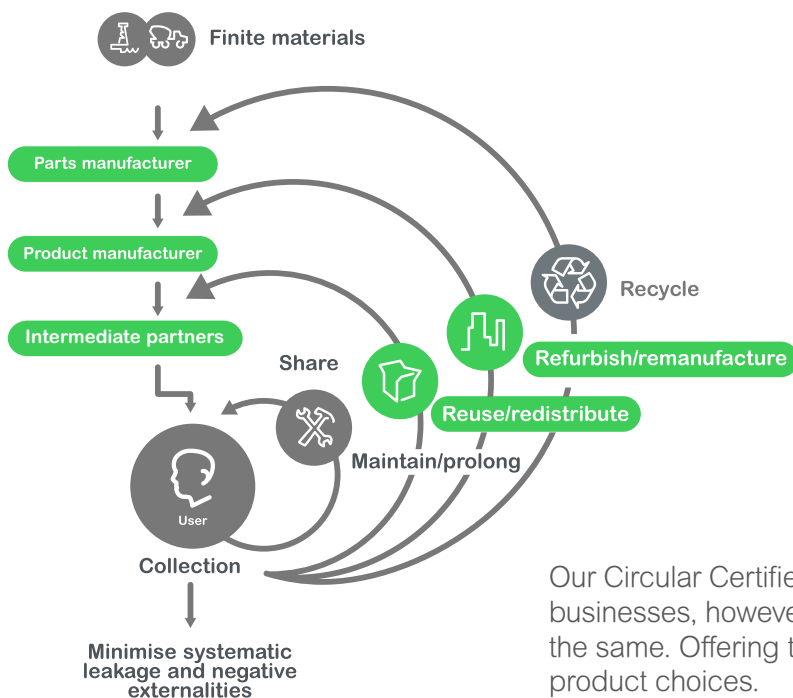

Fully quality checked and modified at the facilities with 9001 Quality, 14001 Environment, and 45001 Safety certified.

Subjected to the same functional tests as new products according to IEC 60947-2.

We commit to the product's quality. Products that do not pass any of the above re-qualification steps are deemed to be recycled.

Our Circular Certified range can cover multiple products and businesses, however our value proposition always remains the same. Offering transparent, sustainable, and reliable product choices.

Efficiently Transparent until End-of-Life

We supply all relevant information so you know you are getting products that you can rely on.

Based on the arrival of each batch of recollected products, Schneider Electric commits to transparently inform each customer in case of technical or functional deviation from the latest MasterPact offer range.

Scan “HERE” on the product to access the offer deviation guide

MasterPact MTZ

MasterPact NW

Reprocessing helps save the planet

Every circular product purchased = production avoided.

MasterPact circular-certified offer feature Schneider Electric's exclusive efforts to cut down the emissions and consumptions of natural resources.

Note: The Circular-Certified offer is not an exhaustive alternative to MasterPact offers; qualification of project delivery of circular certified offer will be done at each case basis by reviewing.

- Availability of the demand references within recollected circular inventory
- Limitations of circular-certified offers for specific applications

Note: Products of Circular-Certified makes no compromise to qualification of IEC 60947-2 standards.
